

**ProTailored Physical Therapy Announces the Introduction
of the LightForce™ EXPi Deep Tissue Laser Therapy**

Fort Wayne, IN – February 2018 – ProTailored Physical Therapy is proud to provide the highest level of pain relief with the LightForce™ EXPi Deep Tissue Therapy Laser.

Laser Therapy is a surgery-free, drug-free option for individuals suffering from both acute and chronic pain. Treatments are fast, safe, and painless. Most patients see results in 3 to 5 treatment sessions and the treatments have a therapeutic effect continuing for up to 18 hours after the treatment.

Laser Therapy is clinically proven to reduce pain and inflammation associated with many common musculoskeletal conditions, such as sciatica, neuropathy, arthritis, low back pain, neck pain, bursitis, tendonitis, and plantar fasciitis. Laser Therapy is endorsed by professional clinical organizations, including the World Health Organization (WHO), American Physical Therapy Association (APTA), and the International Association for the Study of Pain (IASP®) and over 3,000 research studies have been conducted in the field.

The LightForce™ EXPi Deep Tissue Therapy Laser by LiteCure® Medical is FDA cleared and represents a great advance in medical technology. ProTailored Physical Therapy is proud to provide another effective treatment option to our patients with this latest proven technology.

About ProTailored Physical Therapy

ProTailored Physical Therapy aims to get patients out of pain by properly diagnosing and treating ailments like sciatica, neuropathy, arthritis, low back pain, neck pain, bursitis, tendonitis, and plantar fasciitis utilizing the most current medical technology. A primary focus is eliminating or reducing the need for surgery or drugs.
